

Week 1: Activities

1. Think about what different art forms you come into contact with in your everyday lives. For example, do you regularly listen to the radio or to music? What about television shows? **List some art forms that you can think of here.** See if you can come up with any unusual ones! Are there any that you think might be forms of art but you're not sure about?

- You can watch our 'Week 1 activity video' for more ideas and hints and tips. This is just supposed to be an introductory exercise so these drawings can just be very quick sketches (as you can see from my examples in the video), you don't have to spend a lot of time on them.

- 1) Really **look** at the object you want to draw.
- 2) Look for shapes in the object and draw them first.
- 3) Start by sketching loosely and lightly and then refine and define.

Can you take a picture of your sketches and insert it on the next page?

3. Lastly, did you like doing this activity? If yes, why? If no, why not?
